

Recent Tax Changes/Withholdings

With the recent flurry of economic changes, government stimulus package, and Internal Revenue Service modifications, now is a great time to review your personal finances carefully, especially in regards to the recent changes to the IRS tax rulings and withholdings tables. While LAGERS staff can provide you with the appropriate 'Change of Withholdings' forms and make changes as you instruct, we cannot advise you of what your withholdings should be. We suggest you review your situation carefully and consult the appropriate licensed tax consultants for assistance.
