The Missouri General Assembly created LAGERS in 1967 to provide retirement, disability, and survivor benefits to employees of participating local government employers.

LAGERS does not receive any funding from the state of Missouri. Rather, each local government entity is obligated to fund the benefits it chooses for its group of employees.
EXECUTIVE SUMMARY

A SECURE RETIREMENT FOR ALL

LAGERS PAID OUT $283 MILLION TO 21,845 BENEFIT RECIPIENTS LAST YEAR, WITH $263 MILLION STAYING IN MISSOURI. THAT’S A PRETTY NICE ANNUAL ECONOMIC STABILIZER FOR THE SHOW-ME STATE!

For over 50 years, Missouri LAGERS has helped middle class workers transition into middle class retirees. Dependable monthly income is essential for people to exit the workforce with dignity, and helps them maintain their standard of living throughout retirement.

Every hard working Missourian should be able to retire with dignity whether they work in the public or private sector. Retirement security is an important issue in this state. LAGERS understands this importance, and strives to ensure this security every day.

LAGERS is a defined benefit pension plan. Defined benefit plans pay a retiree a modest, pre-determined amount each month. The amount of the benefit is based on a formula, not an account balance, and is driven by the employee’s years of service and salary. Defined Benefit plans remain the most economical and effective retirement plans not only for employees, but for employers and taxpayers as well. They provide a clear and secure path to retirement for employees and help employers recruit and retain a strong, loyal workforce.

Defined benefit plans return value to the communities as well. Approximately 93% of the benefits are paid to retirees living in the communities they served as public workers. The steady monthly retirement benefits received by these pensioners are not stuffed under a mattress, but reinvested in their hometowns.

This report shows the impact LAGERS has on each Missouri county and the state as a whole.
LAGERS paid out $283 million to 21,845 benefit recipients last year, with 93% ($263 million) staying in Missouri.

LOCAL GOVERNMENTS PARTICIPATING IN LAGERS
699

TOTAL ANNUAL PAYROLL OF ACTIVE PARTICIPANTS
$1.5 BILLION

7 OUT OF 10 PARTICIPATING LOCAL GOVERNMENT UNITS ARE 75% PRE-FUNDED OR BETTER.

PARTICIPATING EMPLOYER CONTRIBUTIONS ACCOUNT FOR ONLY ABOUT 2.9% OF A LOCAL GOVERNMENT’S TOTAL BUDGET.
LAGERS is currently 94.8% pre-funded. This simply means that LAGERS has approximately 95 cents in assets already in hand for every dollar of present and future liabilities in the system.

LAGERS is trending toward 100% funding by making steady progress in paying its liabilities.
LAGERS INVESTS IN A DIVERSIFIED PORTFOLIO

LAGERS’ PORTFOLIO PERFORMANCE
As of June 30, 2017

LAGERS’ ASSET ALLOCATION

LAGERS held $6.9 billion in member assets as of June 30, 2017.
All Americans deserve financial security in retirement. Not only are well-managed pension plans good for workers, they are also good for Missouri.

The LAGERS data used in this study:

Fiscal Year 2017 benefits were paid to 21,845 benefit recipients, 19,823 of them live in Missouri.

Of the $283 million in total benefits paid by LAGERS in Fiscal Year 2017, $263 million was paid to Missouri residents.
ECONOMIC IMPACT

The Multiplier Effect:
How spending flows through the economy, supporting jobs and incomes in the process.

A retired sheriff...

$...

DIRECT IMPACT

$...

INDIRECT IMPACT

$$

As a result of that purchase, the owner of the hardware store, the lawnmower salesman, and each of the companies involved in the production of the lawnmower all see an increase in income, and spend that additional income.

$$$

INDUCED IMPACT

These companies hire additional employees as a result of this increased business, and those new employees spend their paychecks in the local economy.
Total Output covers all economic activity generated by:

- LAGERS benefit payments
- All additional economic activity in Missouri generated by those payments

Total output is based on LAGERS benefit payments, times the National Institute on Retirement Security Analysis Total Output Multiplier of 1.41.

Each $1 in state and local pension benefits paid to Missouri residents ultimately supported $1.41 in total output in the state. This “multiplier” incorporates the direct, indirect, and induced impacts of retiree spending, as it ripples through the state economy.
LAGERS has been getting it right for over 50 years.

The modest benefits being paid to Missouri Local Government Employees Retirement System retirees help middle class workers transition into retirement and remain middle class.

LAGERS members work hard. And each month of hard work helps them get a little closer to a dignified, secure retirement. LAGERS members are thousands of police officers, fire fighters, librarians, utility workers, and many more located in every corner of Missouri. They serve our communities everyday to make Missouri a great place to live.

LAGERS retirees dedicated their careers to their communities and are still making an impact today. Ninety-three percent of the $283 million LAGERS pays in annual benefits stays in Missouri communities to promote economic stability across the state.

Defined benefit pension plans are not only good for the retiree, but also for the worker, employer, taxpayer, and Missouri!
