## FREQUENTLY ASKED QUESTIONS

### **Who is eligible to purchase other Missouri public employment service credit?**

Only an active, vested member of LAGERS may purchase previous Missouri public employment. Previous Missouri public employment is eligible for purchase if it was non-Federal and (a) it was not covered by a pension system, or (b) if the previous service was covered by a pension system and the member is not eligible for benefits from that system.

### **What is a pension system?**

A pension system as referenced here refers to a public pension plan that was created pursuant to the statutes of the State of Missouri. A pension plan is not a 457(b) deferred compensation plan, a 401(a) defined contribution plan, or any other retirement or investment program that is not a Missouri public pension system.

### **What are my options for paying for this service?**

This service purchase may be completed by funding with a lump sum payment, 12 installments, or 24 installments. In addition, you do not have to purchase all of this service at once. You may purchase smaller periods at different times while you are still an active member of LAGERS.

### **May I rollover funds from another retirement account to purchase service?**

Yes. You may roll funds directly from another eligible retirement account to LAGERS for the purpose of purchasing service. Eligible retirement accounts include the following: IRA, 457(b), 403(b), 401(a), 401(k).

### **If I complete this application, am I obligated to purchase service?**

No. You will receive a letter from LAGERS with the cost to purchase service after completing this form. You may then make a decision whether or not to purchase.

### **How is the cost to purchase service determined?**

The cost to purchase service credit is a present value dollar amount based on many factors including your age, your current salary, the date of purchase, current service credit, your employer elected benefit program, etc. The cost is unique to each member.
