# Missouri LAGERS

A Secure Retirement For All

For over 50 years, Missouri LAGERS has helped middle class workers transition into middle class retirees. Dependable monthly income is essential for people to exit the workforce with dignity, and helps them maintain their standard of living throughout retirement.

Every hard working Missourian should be able to retire with dignity whether they work in the public or private sector. Retirement security is an important issue in this state. LAGERS understands this importance, and strives to ensure this security every day.

LAGERS is a defined benefit pension plan. Defined benefit plans pay a retiree a modest, predetermined amount each month. The amount of the benefit is based on a formula, not an account balance, and is driven by the employee's years of service and salary. Defined Benefit plans remain the most economical and effective retirement plans not only for employees, but for employers and taxpayers as well. They provide a clear and secure path to retirement for employees and help employers recruit and retain a strong, loyal workforce.

Defined benefit plans return value to the communities as well. Approximately 93% of the benefits are paid to retirees living in the communities they served as public workers. The steady monthly retirement benefits received by these pensioners are not stuffed under a mattress, but reinvested in their hometowns.

### 2022 By The Numbers

LAGERS PAID OUT \$444 MILLION

26,527 BENEFIT RECIPIENTS

\$411 MILLION STAYING IN MISSOURI

#### **State Senate District**

# **Economic Impact**

#### **The Multiplier Effect:**

How spending flows through the economy, supporting jobs and incomes in the process.

# DIRECT IMPACT

# INDIRECT IMPACT

As a result of that purchase, the owner of the hardware store, the lawnmower salesman, and each of the companies involved in the production of the lawnmower all see an increase in income, and spend that additional income.

## INDUCED IMPACT

These companies hire additional employees as a result of this increased business, and those new employees spend their paychecks in the local economy.

Pictured Right: Linda and Wayne Hartley, retirees from City of Independence, enjoying breakfast at one of their favorite local spots: The Royal Biscuit in Blue Springs, MO.

# LAGERS Members Create \$538 Million in Total Economic Output in Missouri

Annual Total Output covers all economic activity generated by:

- LAGERS benefit payments
- All additional economic activity in Missouri generated by those payments

Each \$1 in state and local pension benefits paid to Missouri residents ultimately supported \$1.31 in total output in the state. According to the National Institue on Retirement Security, this "multiplier" incorporates the direct, indirect, and induced impacts of retiree spending, as it ripples through the state economy.
